

## Happy Canada Day

The Kelowna-Lake Country PPC want to wish all our fellow Canadians a happy Canada Day. We love our country and our flag.

We think Canada Day is day of joy for being Canadian. Canada is a prosperous country blessed with natural resources and unimaginable beauty. Our founders also built one of the best countries in the world. Unlike many (most?) countries it is peaceful; it is democratic; we enjoy a right to free speech; and we have a say in how we are governed. These are values that are worth defending.

However, radical people who call themselves progressive, but are anything but, are attempting to portray our country as irredeemably evil, racist, and deeply inequitable. These are not just criticisms made in good faith to engage in a dialogue but are a systematic attempt to shame Canadians to lose their love for our nation — our democracy, our tolerant and kind people and great natural beauty. They, like the protesters shown here in Vancouver, are only trying to destroy our country and tear down the entirety of what they call “the system”.

This is not how the People’s Party see Canada or how we treat our flag.
