

Libs, Cons? No difference!

Tracy Gray MP, Conservative Party has no plans to control spending; and will spend even more under the guise of economic support.

In a [column posted June 25th](#), Tracy Gray highlights how the Liberals and the Conservatives are both Spend &

Tax parties. Neither offers a real solution for the economy. The ruling Liberals continue to print huge sums of money (debt) which they are creating out of thin air. They spend this on poorly designed and run relief programs rife with corruption and shrinkage and with no increase in economic value, but which drive inflation up. To repay this debt, they plan to increase existing and introduce new taxes on Canadians.

MP Gray and the Conservatives propose to spend even MORE, their position being that some industries have not received enough subsidies from the already stressed Canadian taxpayer.

Remember that the economic difficulties were created by government actions with their poorly thought out, badly implemented and unscientific lockdowns of individuals, businesses, schools and business and tourist travel. Despite a trillion dollars already spent, they continue to throw money at the problem when simply re-opening is the only relief businesses need. Big Government lives by the mantra “never let a good crisis go to waste” to initiate their Great Reset and become even larger with more control over the economy and intrude into every aspect of our life.

The People’s Party has a [Platform](#) that is based on the certainty that a free market will grow and provide both the prosperity of a strong economy and a sustainable tax base only when Government reduces barriers by having reduced, sensible levels of both regulation and taxation. The [Kelowna-Lake Country PPC](#) will oppose Tracy Gray and her tax and spend agenda and any similar agenda by any other party.
